

The Belgian company BuzziSpace was established in 2007. The new brand's designs became a worldwide hit almost immediately, as they responded to the global need to bring silence and style to the office.

BuzziSpace designs can be used in changing environments worldwide: our offices, houses and other collaborative spaces are becoming increasingly compact and we are opting more frequently for open-plan spaces.

BUZZIHUB (DESIGN BY ALAIN GILLES)

Temporary work or meeting space

BuzziHub is a space where people can easily come together and share information. It has been designed to become a central point in the social life of an office. It can serve as an informal meeting room for temporary or full time employees. BuzziHub has been designed in order to make you feel at home. It is a warm and comfortable environment made to facilitate communication and improve personal wellbeing.

BUZZIWINGS (DESIGN BY BUZZISPACE STUDIO)

Suspended sound absorbing dividing screen in BuzziFelt

These inventive BuzziFelt ceiling wings are designed to partition a large space acoustically and optically. BuzziWings not only ensure optimum sound quality, you also get a subtly lit room thanks to the integrated, indirect light source. The BuzziWings are attached to the ceiling at a 90° angle; perfect to shape the light and sound to your taste. Available in different BuzziFelt colors.

BUZZIGRID (DESIGN BY ALAIN GILLES)

Ceiling element in BuzziFelt

The BuzziGrid is a sound buffer that limits echo in a room. It takes its inspiration from the structures that have been widely used in the 60s and 70s to partially hide ceilings in public spaces. In this case the grid has been turned into a functional sound absorbing product that can be used in meeting rooms, lobbies, or other public spaces to define areas.

BUZZIDONUT (DESIGN BY BUZZISPACE STUDIO)

Sound absorbing panel with central hole

A round, sound absorbing panel with a distinctive central hole that gives it its tasty name. The sleek round form, standardly upholstered or finished off with a 3D print, is available in all the colors of the BuzziSpace spectrum. The BuzziDonut improves the acoustic qualities of a space.
