

*The future of workplace*

The Belgian company BuzziSpace was established in 2007. The new brand's designs became a worldwide hit almost immediately, as they responded to the global need to bring silence and style to the office.

BuzziSpace designs can be used in changing environments worldwide: our offices, houses and other collaborative spaces are becoming increasingly compact and we are opting more frequently for open-plan spaces.

## BUZZIJUNGLE (DESIGN BY JONAS VAN PUT)

### Vertical conversation tower

Inspired by nature, BuzziJungle offers a solution to the conventional meeting space. The launch of the BuzziJungle will introduce the design world to young Belgian talent Jonas Van Put. This is Van Put's first project with a major international manufacturer. BuzziJungle is BuzziSpace's reflection of their vision for the social office and further pushing the traditional boundaries of the workplace.

Various elements within the structure provide an opportunity for different interactions within the "jungle". You can climb, lounge and meet in the elevated work-lounge space made from lacquered steel. The BuzziJungle creates an urban footprint in large and small spaces.

## BUZZIFLOAT (DESIGN BY ALAIN GILLES)

### **A minimal chair to maximize space**

BuzziFloat is an intentionally simple design that blends into its surroundings. This transparent chair is engineered to feel spacious and airy and has a strong graphic personality. BuzziFloat is offered in multiple finishes: non-upholstered or upholstered with an elegantly cushioned seat and backrest.

Meeting all functional needs the chair is available with three base options: wooden base, metal cross (with or without wheels). The bent plywood back support aligns perfectly with your tabletop. BuzziFloat fits together perfectly with BuzziPicNic tables in office settings, residential homes and hospitality areas.

## BUZZICHANDELIER (DESIGN BY SAS ADRIAENSSENS)

### **An eye-catching lighting solution**

Make a statement with your lighting by opting for the BuzziChandelier. A contemporary take on the classic chandelier. The perfect way to add atmosphere to your room with artful shadows and softened sounds. BuzziChandelier is an ideal design statement and acoustical solution for offices, restaurants, hotels, institutions, residences and more.

## BUZZIHOOD (DESIGN BY ALAIN GILLES)

### Wall mounted acoustic telephone booth

BuzziHood is an acoustic cocoon you can hang on the wall. When you're 'in the Hood' you can answer the phone in noisy surroundings without having to ask the caller to repeat himself. It can be installed anywhere and will cheer up any space!
